

Editor's Comment:

Thank you for your request of my editorial decision on a paper submitted to your journal.

The paper is well-written, but has some minor problems.

I think the paper is suitable for publication in your journal after minor revisions.

1. What about "H.Π.A." in Table 1?
2. Please provide a full-spelling of "ACACA" in the legend of Figure 3.
3. The reference style authors used is not appropriate for this journal.

Please revise all references according to the author guideline of this journal.

For example,

No. 1: "366(9492), 1197-1209. CrossRef Google Scholar. 2005" should be changed to "2005;366(9492):1197-209"

No. 2: "2012. 33(1): p. 48-70" should be changed to "2012;33(1):48-70"
