

SDI FINAL EVALUATION FORM 1.1

PART 1:

| | |
|--------------------------|--|
| Journal Name: | Journal of Advances in Medicine and Medical Research |
| Manuscript Number: | Ms_JAMMR_40083 |
| Title of the Manuscript: | Knowledge About Diabetes and Its Effect on Quality of Life Among Diabetic Patients in Kingdom of Saudi Arabia |
| Type of Article: | Original research paper |

PART 2:

| FINAL EVALUATOR'S comments on revised paper (if any) | Authors' response to final evaluator's comments |
|---|--|
| <ol style="list-style-type: none"> 1. Expand KAU in title (no short forms in title) 2. Change 'Rereading' 'expect' in results part in abstract 3. Change the target population in the 3rd line of methodology 4. Is it 300 physicians? pls verify 5. How many participants did you taken from the wards? The first line of your results states that 300 were taken from the OP.. Be clear with your target population. Already mentioned in point 3 6. Give the percentage labels for each bar in the figures 7. You can put only the significant associations in your tables. Tables are too long (Table 5,6,7) 8. I think figure 3 can be removed. (Repetition of table 9) 9. The results cannot be generalized to the entire population as it is a hospital based study– Add it to your limitation | |
