Title of the Manuscript:	Experimental Periosteitis Does Not Influence The Peripheral Nerve Regeneration In Wistar Rats After Axotomy
Type of the Article	Original Research Papers

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Please replace the term "Periosteitis" with periodontitis. This is the exact term of pathology. Don't use the word We, I,... It is wrong at an article using these terms. There are some English translation problems. After comma is always a pause..	Thank you for your comments and the text was altered
Optional/General comments	The biggest amount of references are until 2016. There is no paragraph of conclusions.	The conclusion was included

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
