SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The grammar should be checked by native English speaker. Line 9: The term "antibiotic susceptibility" is more suitable than "antibiogram". Line 80: yr.. should be written apparently. References should be checked and rewritten, the numbers and the reference list is not consistent with each other. For example Line 92 CLSI guideline refers as 20 however 20th reference is not CLSI. The microorganism names should be written as genus and species names where it is first mentioned (<i>Escherichia coli</i>, <i>Klebsiella pneumonia</i>). Then it should be written as <i>E.coli</i> or <i>K.pneumoniae</i>. The authors should mention about CLSI approach about ESBL. Because from 2010 there is no need to screen ESBL routinely except epidemiological researches.	Noted and corrected where applicable. Correction effected. Correction effected Correction effected Correction effected The relevant section in the text has been rephrased and correction effected with relevant references cited
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
