SDI Review Form 1.6

**PART 1:** Review Comments

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                                                                                                                                      | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | <b>The writing should be improved in order to strength the manuscript.<br/>The names of the microorganisms should be homogenous through the all document.<br/>Instead of sensitivity should be written susceptibility.<br/>Under the material and methods section should be described the statistical treatment used.<br/>A reference supporting the text written from line 182 to 186 is required.</b> | All corrections have been effected.<br><br>Data analysis section has been inserted                                                                                            |
| <b>Minor</b> REVISION comments      | Some typing issues should be corrected. In line 80 one "." should be removed, in line 109 "ug" should be corrected, etc.<br><br><b>The present work is important but needs to be improved.</b>                                                                                                                                                                                                          | All corrections have been effected                                                                                                                                            |
| <b>Optional/General</b> comments    |                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                               |
