

SDI Review Form 1.6

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_22095
Title of the Manuscript:	MicroRNA memory II: A Novel Scoring Integration Model for Prediction of Human Diseases by MicroRNA/MicroRNA Quantum Multi-Interaction
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The paper is interesting. This study is a novel to investigate quantum characters of the microRNA (miRNA) gene as the disease memory device. The methodologies are described clearly and exactly. In analytical point of results are correct. In my opinion, the paper may be published with a very little corrections	Thank you for your peer review during such busy time.
<u>Minor</u> REVISION comments	There are some points that require grammatical and other corrections in the manuscript. The conclusion is too rigmarole, should be more concise.	grammatical mistake is modified. Conclusion is concised.
<u>Optional/General</u> comments	The paper report a good scoring integration model to predict human diseases by MicroRNA/MicroRNA quantum multi-interaction.
