

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_22134
Title of the Manuscript:	MicroRNA Memory I: the positive correlation between synergistic effects of microRNAs in cancer and a novel quantum scoring system
	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
This version is much better than the original one. The scope and depth of this manuscript are more reasonable. However, English still requires some polishing, in particular, the word selection, such as in line 76: This suggests that there is room for discussing-allowing existence of miRNA-miRNA synergies. Line 88: The quantum superposition and entanglement of miRNA could record, transmissiontransmit, and even inherit biological statuses in cells, like a-memory devices in computers [25].	Thank you for pointing out my mistakes. They were corrected. Additionally, I fixed errors in Table 1 and rewrote some sentences (line 86, 87~). An orthographical variant (devise – device) was unified into “device”.
