SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	This is an interesting and rare case report with huge lipoma in the neck region. Are there any other cases of huge lipoma in literatures? If the tumor of this case is the largest in past literatures, this report will take more great value. The author should describe about other cases of giant lipoma after more detailed literature search. This article is worth of publishing after minor revision.	This is not a largest lipoma case report. Previously a case of 5.5 kg. of posterior neck was reported. I have added this reference in manuscript.
<u>Optional/General</u> comments		Thank you for valuable comments.
