

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_23250
Title of the Manuscript:	Ulcerated Giant Lipoma over Nape of Neck – A Rare Case
Type of Article	Case studies

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1- It is not appropriate to put sense in a manuscript. " He was happy when he came in follow....). Please change it as " there is no complaint of patient at follow-up." 2- Ulcerated hemorrhagic lipomas may arouse suspect of especially GIS malignancies. These are at differential diagnosis of ulcerated huge lipomas.(Minerva Chir. 2014 Jun;69(3):147-53; Med Sci Monit. 2014 Apr 23;20:674-80. doi: 10.12659/MSM.890303; J Med Case Rep. 2014 Sep 16;8:309. doi: 10.1186/1752-1947-8-309) These references are not for GIST. These are at differential diagnosis of ulcerated lipomas at GIS. 3-Well revised manuscript. Congratulations. It can be enriched by above corrections.	1-Thank you, I have corrected this in manuscript. 2-Really a valuable suggestion for this manuscript. I have given the reference for differential diagnosis.
