SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Lines 39-41: sentence has an incongruent meaning. I suggest it to be rephrased. Do not use different acronyms for the same situation (GTI and GI, for example).	
<u>Optional/General</u> comments	This revision paper deals with the effects of drugs and food on artemether-lumefantrine therapy. It reads well and covers a broad spectrum of recent literature on the subject.
