SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Did the authors obtain skin biopsy of the malar facial rash? Discussion is too short. No parallels are drawn between the different case reports and no thoughts are presented in regards to why these diseases are connected. Line 106: In what ways do diagnostic criteria for CD and SLE overlap? Picture C: This does not look like erythema nodosum and does not look like the same patient!! Fair skin?? Was biopsy taken? Table 1: Were skin manifestations observed in any of these patients? Plagiarism Issue-Yes, picture C does not look like it is from the same patient. Fair skin...!!	- Skin biopsy of the malar rash is not done. - Diagnosis of SLE was according to 2012 SLICC SLE criteria. - Corrections in discussion part done & highlighted. - In line 106, its clinical features of CD and SLE overlap, correction done. - Picture corrected -
<u>Minor</u> REVISION comments	Line 51 (and elsewhere): The meaning of 'h/o' is not clear. Line 60: 'Atropic' should be 'atrophic' Line 61: What is meant by 'fundus'?	- h/o stands for history of - corrected - I meant fundus examination of eye
<u>Optional/General</u> comments		Thank you sir/madam. It helped me to improve expression of data in better way. Thank you for your guidance.
