

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_23186
Title of the Manuscript:	In Vivo Studies On the Possible Hypolipidemic Alterations in Rats Adminstered Hibiscus Sabdariffa Aqueous Extract
Type of Article:	Original research Articles

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Dear Authors, I appreciate your efforts put in revising the manuscript. However, the figures needs to be inserted with their significance (p-values) in legends and on the error bars. In the Reviewer's response the authors mentioned that the figures were changed accordingly by showing the significant and insignificant values in the graphs, but that was not the case. I still see the old figures. So, please change it with new figures by inserting '*' on significant values in the graphs.	Response: That has been done for all the figures that have significant differences from the normal control group (Group one). "*" indicates significant change or difference at $P < 0.05$ (that is increase or decrease) from the normal group. It was also stated under statistical analysis that levels of significance was accepted at $p < 0.05$.
