Manuscript Number:	Ms_JAMPS_24780
Title of the Manuscript:	Effect of Magnesium Sulphate on Hepatic Biomarkers in Pre-eclamptic Patients in Selected Tertiary Hospitals in Osun State South Western Nigeria
Type of Article	Original Research Article

SDI FINAL EVALUATION FORM 1.1

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Authors do not answer the demand of Reviewer properly. There are a number of issues that need to be addressed: 1) Methods The method for measurement has been already established and is common. The description of established methods are not necessary in this type of paper. (Line 75-82, Line 139-267) 2) Discussion Discussion is not revised at all. Discussion is immature and insufficient. 3) magnesium sulfate/ $MgSO_4$ Magnesium sulphate was still used instead of $MgSO_4$ in the middle of a sentence (Line 420). 4) References Abbreviation of journal name is not correct. Ex. Ref 20 "J. cli. Pathol" should be "J Cli, Pathol" (Line 484) Reference 24. This paper is only case report. This does not explain tight junction mechanism.	1) We have deleted the descriptions of procedures and calculations from the methods within lines 139 and 267. 2) We have done the much we can do. 3) Thank you. The correction has been effected. 4) This has been effected.
