

SDI Review Form 1.6

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_25404
Title of the Manuscript:	OXIDANT-ANTIOXIDANT STATUS AND RENAL FUNCTION IN WISTAR RATS AFTER ADMINISTRATION OF Vernonia amygdalina FRACTIONS IN STREPTOZOTOCIN INDUCED DIABETES MELLITUS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	None	
<u>Minor</u> REVISION comments	In Discussion, it's better to clarify more details about what's the limitation of the method, does any other aspects may have the influence towards it? Any further research or application we could use this experiment result?	More details have been included in the discussion and have been highlighted in yellow.
<u>Optional/General</u> comments	The study shows that Vernonia amygdalina reduces oxidative stress by causing a balance in the oxidant – antioxidant level as well restores deranged renal function seen in diabetes mellitus. This letter is well organized and written. The reviewer suggest JAMPS accept this letter.
