Manuscript Number:	Ms_JAMPS_28271
Title of the Manuscript:	Alzheimer's: A Disease Fraught with Syndromes, Hypotheses and Theories with attendant intractable Pharmacological Management
Type of Article:	Review paper

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Comprehensive review of the subject. Factually correct I recommend this review to be accepted although some degree of plagiarism still present (42%) Taking into account the large amount of literature reviewed in this article, it can be justified and most statements are referenced accordingly Line 91: perhaps mention rectal administration and reference accordingly (DOI: 10.1080/10611860500441933 Line 158 (and subsequently 294) give description in brackets i.e β-site amyloid precursor protein cleaving enzyme Line 180 needs to be moved to line 179 Line 200 – transitional (spelling error) Line 212 – Tauopathies (spelling and caps)- please change consistently Line 269 – “self eating” consider “self consuming” Line 270 - ..endocytosed (spelling) Line 484 moved to 482 Line 506 ends bluntly?? “...in the brain should?????” Line 509 Consider rewriting the conclusion. General: This paper should undergo language editing without unnecessary flowery words such as “yield fruits” or “debilitating monster” etc	Line 91- Rectal administration mentioned from your source and referenced accordingly on reference list (9) Line 158- Dealt with as pointed out Line 180- Movement effected Line 200- Regrettably spelling error but now corrected Line-212- Spelling error but correction effected Line- 269- Self consuming adopted Line 270- Corrected as endocytosed Line 484- Effected the movement Line 509- Conclusion rejigged General- Edited with expunged flowering All the corrections effected are depicted in yellow color on the body of the manuscript.
