

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_29006
Title of the Manuscript:	In Vitro analysis of the interaction between ketorolac tromethamine and bovine serum albumin using fluorescence spectroscopy
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1. Check the sentence written at page number 1 and at line number 27. What is meaning of typed words in the quoted sentence, "A no of experiments". Check it and correct it accordingly. 2. Correct the spell given at Page number 2 and at line number 49. Evaluate replace with evaluate (Correct spelling). 3. Conclusion (written at Page number 9) must be revised as per the drug related research article. So, it is important to quote the significance or future application of proposed ketorolac-BSA association in this work especially in terms of getting effective drug-binding percentage with its effective delivery or attaining effective consistent site specific targeted delivery or non-toxic or cost effective drug binding with BSA. Because this kind of binding has been reported earlier. Hence, there is need of different or novel approach of the proposed drug-BSA association for this work.	1. Line number 27 at page number 1 is corrected accordingly. 2. Spelling of evaluate is corrected at Page number 2 and at line number 49. 3. Conclusion part of the manuscript is revised accordingly at page number 9.
