SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Day care lap chole is well known entity.a good selection of patients is important which can be done on usg preferably one day before surgery.the usg criteria for choosing patients for day care lap chole should be mentioned.	Choledocholithiasis was suspected if there was a history of jaundice or acute pancreatitis, liver function tests were elevated or ultra sound scan showed biliary dilatation. The constraints of a small hospital prevented day of surgery ultrasonography.
<u>Minor</u> REVISION comments	There are spelling mistakes and technical errors which need to be corrected	These have been corrected and highlighted in yellow.
<u>Optional/General</u> comments
