|  | <p>In the three versions of the TEAC assay; the TEAC value of Trolox is 1.00. Gallic acid responded in all the assays as the strongest antioxidant. The TEAC values analyzed in TEAC II, TEAC III (hydrophilic version) and TEAC III (lipophilic version) were higher in gallic acid and lower in <i>T. occidentalis</i>. Based on these facts, the descending order of antioxidant activity of the three substances analyzed is: gallic acid &gt; Trolox &gt; <i>Telfairia occidentalis</i>. In addition, both TEAC II and TEAC III (lipophilic version) showed comparable antioxidant activity both in gallic acid and <i>Telfairia occidentalis</i> (Table 1).</p> <p>In Table 1. You must write "Gallic acid" and not "Gallic". We must put the following words in bold "Assay/Antioxidant, Gallic acid, <i>Telfairia occidentalis</i>"</p> <p>209. | <b><u>Optional/General</u></b> comments | <p>The scientific quality of the material to our evaluation is indisputable. However, the many forms of faults that mark the manuscript might affect that quality. Therefore, we propose correcting these mistakes to forms for improving the final document that will certainly be an important tool for the scientific community.</p> |  |

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
