

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	<u>Journal of Advances in Medical and Pharmaceutical Sciences</u>
Manuscript Number:	Ms_JAMPS_30242
Title of the Manuscript:	A Case of Hydronephrosis in Placenta Percreta
New title:	A Case of Hydronephrosis in Placenta Percreta involving the urinary bladder
Type of Article:	Case Study

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Still the title and the manuscript are irrelevant. The case is not a case of hydronephrosis due to Placenta Percreta directly or indirectly. It seems rather to be iatrogenic after hysterectomy.	<p>Title was changed to "Placenta Percreta and its consequences-a case report".</p> <p>If the title is still inappropriate, then, will the reviewer kind enough to suggest me a new one?</p>
