Previous Title of the Manuscript:	A Simple and Sensitive UV Spectrophotometric Method for the Determination of Ibandronate Sodium in Pharmaceutical Formulations and Bulk Drugs
New Title of the Manuscript:	A Simple and Sensitive UV Spectrophotometric Method for the Determination of Ibandronate Sodium in Pharmaceutical Formulations and Bulk Drugs
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
- The background regarding the methods for the determination of ibandronic acid is still not in enough detail. - The paragraph added as a discussion section does not discuss the primary findings/results of the study. It rather gives general knowledge about ibandronic acid. Therefore the discussion section is still missing. - I regret to say that revisions are not satisfactory. - A rewriting of the article is necessary.
