SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	-It is a new , interesting and useful study. -Analysis is scientific and statistically satisfactory	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	In my opinion Randomized controlled trials a gold standard method for study ,should also be employed for this study by taking various age group of different diseases getting different treatment options and their interactions . Then the result of these trials should be meta-analyzed. This will give the more useful results.
