SDI Review Form 1.6

PART 1: Review Comments		
	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	None	
Minor REVISION comments	Review of the general text, some spacings are missing. The species, particularly in the 3rd paragraph of the etiology section should be in italic Concretely a word on text construction: - Line 5 of the abstract where it is written "alter in vaginal flora" I suggest changes or alterations instead of alter - Line 10 of introduction I suggest biochemical parameters instead of changes. - Line 1 of the 4th paragraph of the Etiology section I suggest a restructuration of the sentence beginning with The numbers of... are increasing instead of "Increasing are the numbers..."	
Optional/General comments	A very good revision on the topic, easy to read through and with practical messages.	

Reviewer Details:
