General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are lots of grammatical errors that should be corrected/ Some examples- L13 – in animals L 20 – should be “level in body can be measured” L 24-25 – Please revise L 34-38 – Revise If the authors can check the grammar in the introduction it is good How did you make sure that animals consumed all the food to ensure the ingestion of toxin Did authors measure the toxin level after few months to elimination from the body Discuss your results	L20 – the grammar is correct. The levels measured in the body system is plural as it deals with different organs and tissues. The toxin was introduced intraperitoneally into the animal system Toxin level was measured 7 days after intoxication The results obtained were adequately discussed
Minor REVISION comments		
Optional/General comments
