SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. Sample size is very very low. 2. With only one imipenem intermediate isolate the author cannot say the prevalence. 3. Collect more samples, study them then write article. 4. State the CLSI guidelines in methodology 5. Provide reference for processing clinical samples 6. List out the biochemical characteristics of <i>Klebsiella pneumoniae</i> in methodology. 7. What is the antibiogram of the isolate?	The sample size was calculated using Kish Leisle formula. The comment on biochemical characteristics of <i>Klebsiella pneumonia</i> is noted and corrected. All other comments noted and corrected.
<u>Minor</u> REVISION comments	Spelling and grammatical errors throughout the manuscript	
<u>Optional/General</u> comments	Don't give result in methodology. With only one sample and only one parameter studied, an article cannot be accepted as original article.
