SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Authors include AKI&CKD in the same analysis. Causes, consequences and prevention of AKI&CKD are different. It should be discussed and analyzed. The presentation of results is confuse: -The total number of cases showed in summary, table 2 and figure 1 doesn't match. - Table 1 should be replaced by a histogram for age distribution. -Figure two's title should be rewritten as: Outcome of patients with Renal Diseases	This was a retrospective study on the spectrum of renal diseases in Bsuth, Makurdi. The objective was just to define the pattern of renal diseases(all the renal diseases admitted into the medical wards). The presentation of results have now been corrected in the revised manuscript. Noted. Correction effected in the revised manuscript. Noted.
<u>Minor</u> REVISION comments	Line 52: AKL?	Noted.
<u>Optional/General</u> comments		Thank you so much for your comments and time.
