SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The subject of this work is important. However, the manuscript must be improved. The authors must include recent references to improve the Introduction and Discussion section. Moreover, recent references are important to show the relevance of the findings. There are some suggestions in the yellow boxes in the pdf file. I suggest to indicate the numbers related to the chemical formula in bold and italic formats. This would be interesting to be different of the numbers of the references.	THANK YOU. I HAVE ADDED THE REFERENCES SUGGESTED BY THE REVIEWER INTO THE INTRODUCTION OR DISCUSSION OF THE TEXT. SEE REFERENCES LIST WHERE INCLUSIONS ARE HIGHLIGHTED IN YELLOW. THE REFERENCES SUGGESTED HAVE BEEN INCLUDED IN THE TEXT. I HAVE LOCATED AND INCLUDED THE REFERENCES AND SUGGESTIONS FOUND IN THE YELLOW BOXES INSERTED INTO THE PDF. I HAVE THE NUMBERS DESCRIBING THE CHEMICAL STRUCTURES AS BOLD AND <i>ITALIC</i> AS SUGGESTED. THIS IS DONE IN THE RESULTS AND DISCUSSION SECTION TO FOLLOW THE FIGURES THAT PRESENT THE MOLECULAR STRUCTURES.
Minor REVISION comments	There are some suggestions in the yellow boxes in the pdf file.	I HAVE RESPONDED TO ALL SUGGESTIONS IN THE YELLOW BOXES OF THE PDF. REFERENCES WILL BE ADDED TO THE TEXT BUT <u>THE LINES IN THE TABLE MUST REMAIN TO ALLOW READERS TO TRACK THE POSITION OF THE MANY NUMERICAL VALUES TO THE DRUG NAME AND PROPERTY NAME.</u> THERE ARE TOO MANY NUMERICAL VALUES IN THE TABLE TO REMOVE THE LINES!!!
Optional/General comments
