

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_33851
Title of the Manuscript:	Modeling Food Energy in Bioenergetics
Type of Article:	Original research papers

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The following suggestions is made again, because the authors did not change the suggested changes: • Introduction I suggest writing the second paragraph followed to the previous paragraph. • Please, clarify the objective of the study. I consider that it is not well expressed. Replace the word <i>form</i> for <i>develop</i>. • Please, define acronyms <i>NGOs</i>. Line 42: I suggest replace the word bromatology for nutrition. • Why the authors did not named fuel factor of food as <i>Atwater factor</i>? Justify. • Line 132- 134: it is not important the definition about <i>health</i>. Please, remove it and use an appropriate reference! • The authors said that: <i>Is there any law to become a book not suitable for using in reference section. I think that is not the way to answer a suggestion. I suggest being more polite. It is more appropriate for a manuscript a paper than a book.</i> • I consider that the manuscript has a lot of references. Please, review the references and use the most significative. This version has 97 references!	Yes, the corrections are made. . Replaced develop in lieu of form. . NGOs (Non Government Organizations). Bromatology replaced by nutrition. . Atwater factor is not easy to understand as easily as fuel factor. . Removed. . Corrected. . Reviewed and corrected.
