

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_33901
Title of the Manuscript:	Effect of body positions on lungs volume in asthmatic and non-asthmatic individuals: a cross-sectional study
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
In the Abstract: The total of 30 participants <u>were</u>: consider: The total of 30 participants 'was' The order of the body positions <u>were</u> consider: The order of the body positions 'was' In the introduction Line 46: While the normal participants were recruited around UNIMAS campus. Consider removing the full stop before while and make w in while small letter reason it is a link to the preceding statement Line 64 consider removing 'then' or you can put 'and' before then Line 121 to 122: Consider paraphrasing: 'The lesser compression on lungs and heart while standing might favor resulting the positive impact on individual's FEV1/FVC [5].' 'The lesser compression on lungs and heart while in standing might result in the positive impact on individual's FEV1/FVC [5].' Line 123 considering removing was: A study '<u>was</u>' conducted with normal participants revealed that the respiratory pattern was highly influenced by the positions from sitting to supine or prone positions [10] Line 130 consider 'ventilation impairment': ventilatory impairment Lines 135 consider putting comma after lowest: lowest, was standing position (Table 3). Line 147 considering putting 'in' before resulted	We have corrected in abstract. We have corrected in abstract. We have corrected at line 46. We have corrected line 64. We have corrected line 121 to 122. We have corrected at line 122. We have corrected at line 130. We have corrected at line 135. We have corrected at line 147.
