SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The article is simply a copy of the tests described in the pharmacopoeias, and has no scientific contribution to the subject;</p> <p>- As can be seen, from line 93 to 632, only references 31, 32, 33 and 34 are cited, without at least commenting on the tests or researches of the authors in the area, or if there are differences between the tests mentioned in the pharmacopoeias;</p> <p>- The United States Pharmacopeia in force is USP 40 NF 34, 2017, not the one mentioned as reference (USP 33 NF 28, 2010);</p> <p>- The Japanese Pharmacopoeia is in the 17th edition;</p> <p>- The British Pharmacopoeia with the 2017 edition;</p> <p>- The Indian Pharmacopoeia with the 2014 edition;</p>	<p>Thanks a lot for your suggestion. In this manuscript we have presented QC parameters given in the pharmacopoeias for ophthalmic pharmaceuticals. It will help for reader to get all of the information in a single script. In addition reader can also see the differences of various pharmacopoeia. Since it's based on pharmacopoeia we have no way to add text out of compendia.</p> <p>New information is also added to enrich the scientific value of the manuscript. Please see yellow marked text. In this revised version the total number of references is 52 in previous version only 34 references were given.</p> <p>I am pleased to get your critical analysis. Text and references are added and updated.</p>
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
