PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Manuscript found satisfactory for publication in just need to add Comparison with the known standard formulation with proven suspending agent and marketed formulation	The authors appreciate the reviewer's comments. The recommendation to add a comparison with a known standard commercially available formulation with proven suspending agent is a good one. The authors are handicapped since there is hardly a commercial formulation with manufacturer's declaration of the suspending agent used.
