SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	The present paper refers to a review from the literature about the effect of several vegetable oils on pruritus alleviation. From my point of view there are no technical aspects to refer. I only suggest to uniform the name of the authors mentioned along the text: for example in page 2, line 67 (Agero A) appears the last name followed by the initial of the first name, in page 3, line 79 (A. Lubble and R Verporte) appears the initial followed the last name and in the same page but in lane 121 you used only the last name. Additionally, in page 3, line 117, you should replace α-pinene by α-pinene.
