SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	None	
Minor REVISION comments	The author should indicate that no post-discharge infections were recorded for this study. It would be helpful if the authors should indicate the length of hospitalization for the patients as an average or median value. Very short lengths of stay will result in large numbers of infections not identified until after the patients are discharged.	
Optional/General comments	None
