SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The author should give details of the percentages of various histological variants of Invasive ductal carcinomas in order to add more value to the manuscript.	
<u>Minor</u> REVISION comments	Introduction 1. Line 23: The author should be more specific about the findings by Ngadda et al. Results 1. Author will do well by including the primary site of mucinous carcinoma that metastasized to the breast. Discussion 1. Line 109: what does author mean by "Breast cancer is extremely rare between age 20 years" ? Do you mean to say "..... between age 20 and 29 years"? Conclusion Line 125: "Management of breast cancer is multidisciplinary". This is an incomplete statement. References 1. Ref number (7): Is it ".....Benin breast disease or Benign breast disease"? 2. Reference number (13): Is it Benin breast disease or Benign breast disease"?	
<u>Optional/General</u> comments	The manuscript would add more value to existing literature on pattern of breast diseases in Nigeria if author could note and address the corrections suggested.
