

**Editor's Comment:**

Your manuscript has been evaluated by qualified reviewer(s) and we are pleased to report that this work has been judged to be potentially suitable for publication Journal of Advances in Medical and Pharmaceutical Sciences after minor revision.

Please, summarize your response regarding the following comments under new part in your manuscript "Ongoing and Future Work" before conclusion section:

- It would be a stronger story if adding some lab test of these animals to this manuscript, such as blood cell count, liver function and kidney function.
- When talking about biological effects of these phytochemical components, could the author please cover their toxic effects as well? May there be some interaction between the effects of various phytochemical components
