SDI Review Form 1.6

**PART 1: Review Comments**

|                                            | Reviewer's comment                                                                                                                                                                                                                                                                                                              | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)                                                                                             |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | <b>Title: North Central</b><br><b>Lines 35, 42, and 44: This references are old please cite recent ones.</b><br><b>Line 46: Please check MIS 2015.</b><br><br><b>Survey Areas: it will nice to mention the towns where the study was carried out.</b><br><br><b>Result: Was there any significant difference in the Gender?</b> | 1. The comments by the reviewer have been noted and necessary corrections have been effected and appropriately highlighted in yellow as instructed<br>2. The issue of differences between gender is a subject of on-going research and will soon be ready for publication |
| <b><u>Minor</u></b> REVISION comments      |                                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                           |
| <b><u>Optional/General</u></b> comments    | The study was a good one but all the issues mentioned above should be addressed.                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                           |
