

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_38201
Title of the Manuscript:	In Vitro Antimycobacterial activity of Ficus sycomorus on susceptible strain of Mycobacterium tuberculosis
New title of the Manuscript:	<i>In Vitro Antimycobacterial screening of Ficus sycomorus extracts on susceptible strain of Mycobacterium tuberculosis</i>
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Article corrected satisfactorily. Acknowledgments: Replace "A" by "Authors" References: I appreciate your effort but check it again. Harmonize it (Ex: Reference 1, authors 1 and 2). Abstract: four fractions A-D was obtained? B, C and D was measured? Results: figure title should appears at the bottom.	OK. The n-hexane fruit extract (the most active extract) was then partially purified using thin layer chromatography and Column chromatography where four fractions A-D was obtained, where A lacked activity but B, C and D was measured for their Minimum inhibitory concentration (MIC) as 6.25µg/mL, 25µg/mL and 100µg/mL respectively, therefore fraction B had the lowest minimum inhibitory concentration against the tested <i>M-Tb</i> strain as 6.25µg/mL.
