FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The author did revision as much as possible and the manuscript is improved a lot. However, a few still need to revise to get a perfect manuscript. Please revise again the followings. 1) Please correct the title as the author's "Effects of Chlorotoxin on Matrix Metalloproteinase-2 (MMP-2) in Melanoma and Breast Cancer Cell Lines". 2) Line 22, should change 'gelatin' to 'collagen'. 3) Line 61, the correct references are missing. Should be Caputo, E., ... Cell cycle 2011; 10(17): 2924-2936. And Miller, Arlo J. and New England Journal of Medicine 2006; 355(1): 51-65. 4) Author should mention the amount (μg) of collagenase in each lane in the caption of Figure 4. OR concentration of collagenase used in the experimental section 2.3.4.1. 5) The author didn't correct the label MDA-MB-463 to MDA-MB-436 which is at the top of zymography gel in Figure 5. Please correct the spelling of 'zymography' in figure 5 caption. 6) Please move "The cell lines expressed a distinct band at molecular weight of 56 kDa" to Line 260 above the 3.3. Effect of chlorotoxin section. 7) Line 277, full stop after [6,18]. not comma. 8) Line 293, reference should be Hu, X..... Journal of Visualized Experiment: Jove 2010..... Please see the Ref.11 in the very first manuscript. 9) Line 297, reference should be 20, not 21. 10) Line 325, please omit Ref no. 2 & 24. Keep only 16. 11) Line 327, CIC-3, not big I "I", is small L	1) The title has been corrected in the text. 2) Line 22 has been corrected and highlighted in the text. 3) Line 61: citation of references has been corrected and highlighted in the text. 4) The amount (μg) of collagenase has been added in Figure 4. 5) The author could not notice and recognise the number "463". The author has corrected to "MDA-MB-436". 6) The author has moved the sentence. 7) The author has corrected and highlighted in the text. 8), 9), 10): The author has checked, corrected and highlighted references in the text. 11), 12) The author has checked and corrected "I" (small L) and "I" (capital i). All "CITX-binding

"I". 12) Line 345, Cltx-binding protein, should be small L "l", small T "t" & small X "x". 13) Line 384, Ref 10, Nikshatri H, please add H. 14) Line 405, Ref 17, please check the spelling, 'non-specific'. 15) Line 427-430, Ref 25 & 26, please add the title of papers. Authors should check format of every reference, they should be in uniform (some journals are in short and some are in long form). Author should use only one same form.	protein" has been corrected to "Cltx-binding protein" in the text. 13) Ref 10 "Nikshatri H" was deleted and replaced by a difference Ref as required 3). 14), 15): The author has checked, added the paper title and highlighted in the text. The author has checked and corrected that the long form of journals' name will be used.
