PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Methodology: "The sample size was 92"... - Sample size calculation Why 92? - Exclusion criteria (review – a better explanation): history of cigarette smoking and chronic coffee consumption Discussion It is necessary a better comparison: data collected x literature review. References (Update if it was possible) Ethical issues Human Subject Research	We are sorry for the mix up. The sample size was 92 not 96. Individuals who smoked cigarette, consumed alcohol or coffee on long-term basis were excluded to confounding factors that could influence results Ethical Clearance was obtained for the study and it was stated in the methodology(line 70 & 71)
Minor REVISION comments		
Optional/General comments
