

SDI Review Form 1.6

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_43977
Title of the Manuscript:	BODY WEIGHT CHANGES AND SERUM GROWTH HORMONE COMPARRATIVE ASSESMENT IN FEMALE LACTATING WISTAR RATS (Rattus Norvegicus) TREATED WITH METOCLOPRAMIDE AND SOME ATYPICAL ANTIPSYCHOTICS
Type of the Article	Research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract: The author does not report how the blood collection was performed. Introduction: The introduction does not contain the objective and the justification of the accomplishment of the work. Keywords: Replace the keywords that are already in the title (metoclopramide, Body weight and Growth hormone). The keywords must be different from the ones in the title. EXPERIMENTAL DESIGN: L.50-56 The article needs to be approved by the University's Ethical Committee (N°). Inform the number of the process. L.72-73 Cite in which scientific article you were based to use the doses of the drugs tested. Or if it is your own authorship how did you define these doses? Conclusion The authors should improve the conclusion, which is looking like a result.	Noted. Corrections have been effected in the manuscript Noted. Corrections have been effected in the manuscript Noted. Noted
Minor REVISION comments	The article is well written. It provides important information about postpartum drug use and its relationship to GH concentrations and body weight gain in rats.	Thank you
Optional/General comments	Add the objectives and justification of the study in the Introduction. You need to add the process number of the Ethics Committee for use of animals in experiments. Improve the conclusion.	This research is an excerpt from a work we conducted a while back as part of a dissertation during which a proposal was presented to the department and approved taking into consideration the University's ethical standards on the use of animals.
