

SDI Review Form 1.6

Journal Name:	Journal of Advances in Medical and Pharmaceutical Sciences
Manuscript Number:	Ms_JAMPS_38321
Title of the Manuscript:	In Vitro Free Radical Scavenging And Antioxidant Activities of Aqueous Extracts of Crateva adasonii(Three-Leaf Plant)
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Authors did a very good work. The study was well design and conducted. The methods used are suitable for the proposed objective. However, the manuscript has some deficiencies most of which are inserted at the right places in the manuscript.	
Optional/General comments	Authors should compare the results between each part of the plant and according to the mode of extraction. for exemple for cold extraction which one of leaves, barks or roots extract is more active? do the same thing for hot extraction and at the end compare the results of the two types of extractions for every part of plant as they did.
