PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are some spelling errors or word error as below. Please corrected these errors. 33 reported very rarely with only 300 cases of EPN reported since its first description in 1898, 40 vomiting and increased frequency of urine urination but did not complain of dysuria. Past medial 43 S1 and S2, respiratory system was clear and per-abdomen was soft. Vitals on admission were 49 within the range. Urine sample was sent for culture and susceptibility test.ing-and the The patient Lack of KUB, USG or CT photograph, which could show the EPN obviously. Emphysematous pyelonephritis was not so rare in clinical. Because there were so many cases had been reported, so decreased number of further cases to be reported.	
Minor REVISION comments		
Optional/General comments
