**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Editor's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b><u>Compulsory</u></b> REVISION comments	<b>I insist that the quality of the images is very poor. The macroscopic photo can be improved and the only histological image would be good to have at least two, where the transition between breast tissue and injury resembles. It is imperative to improve the quality of the images.</b>	
<b><u>Minor</u></b> REVISION comments	consider grammatical errors and quality of images	
<b><u>Optional/General</u></b> comments	The case is interesting and rare.	

**Editor's Details:**

Name:	<b>Prof. Severino Rey Nodar</b>
Department, University & Country	<b>Department of Pathology, Hospital Enrique Garcés. International University of Ecuador, Ecuador</b>
