SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Comment #1: please discuss how chemotherapy induced changes were differentiated from underlying disease or e.g. infection etc	As in patients section; All patients were evaluated by clinical assessment in the form of careful patients history taking together with clinical examination. Twenty patients underwent bronchoscopy with bronchoalveolar lavage and were evaluated for respiratory viral and microbiological infections. Also; patients underwent three or more follow up post chemotherapy CT chest examinations without medication revealed improvement of these findings.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
