

SDI Review Form 1.6

Journal Name:	Journal of Cancer and Tumor International
Manuscript Number:	Ms_JCTI_23465
Title of the Manuscript:	Antineoplastic Activity of the Ethyl Acetate Extracts from Co-cultured marine and Terrestrial Actinomycetes
Type of the Article	Original Research Articles

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In spite of cancer treatment depends on chemotherapy, the findings of this study highlight that the co-culture on marines and terrestrial Actinomycetes produce a new compound with eventual antineoplastic effects.	Currently we are carrying our research on co-culture. As a part of biological study of co-cultured metabolites, we applied it against carcinoma cell and found eventual action. Actually we are focusing on both.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
