

SDI Review Form 1.6

Journal Name:	Journal of Cancer and Tumor International
Manuscript Number:	Ms_JCTI_23465
Title of the Manuscript:	Antineoplastic Activity of the Ethyl Acetate Extracts from Co-cultured marine and Terrestrial Actinomycetes
Type of the Article	Original Research Articles

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1- This is a study about antineoplastic activity of ethyl acetate extracts. 2- Line 22 "lasrge" must be corrected. 3- What is the statistical method? 4- Discussion is too short. "Treatment of cancer depends on surgery, chemotherapy, and radiotherapy. By investigation of various drugs or surgical methods the prognosis of cancers can be improved." (<i>Int J Clin Exp Med.</i> 2014 Apr 15;7(4):1047-51.) (<i>Cir Esp.</i> 2015 Feb;93(2):118-20. doi: 10.1016/j.ciresp.2014.06.013.) (<i>Med Sci Monit.</i> 2014 Aug 4;20:1369-75. doi: 10.12659/MSM.890804) This can be added in the very beginning of discussion section. 5- References are a bit old. Number of references must be increased.	1. Not ethyl acetate but the extracts extracting with the ethyl acetate as a solvent as applied against carcinoma cells and found eventual action. 2. The word was corrected. 3. Statistical method was discussed on the legend of the table. 4. Yes it is now included in the discussion section 5. Recent and new references were included.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
