SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Relevant study. Brings the importance of developing more research in this area Introduction I think I missed to bring a little more problematic of the study. The lack of definition of the data and studies on the incidence of cervical cancer in Calabar. Suggest to describe in more the situation. Better justify the study Material and Methods I suggest inserting the criteria for inclusion and exclusion to develop the study. The amount of captured data. Detail the methodology of the study. Say what was the design of the study. How was the analysis? What ways have you used?	Agreed: The lack of population data on cervical cancer in Calabar - Nigeria has now been described more. Agreed: Inclusion criteria as well as exclusion criteria has been included. Amount of data captured is highlighted. Both the study design and analysis and the way data is used are now stated.
<u>Minor</u> REVISION comments	Conclusions What were the limitations of the study?	Agreed: The limitations of the study have now been stated.
<u>Optional/General</u> comments	Conclusions What are your suggestions and recommendations?	Agreed. Suggestions and recommendations have now been included.
