PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are often too many words repeated (for ex.: body image changes, studies, etc.). It would be good to summarize the literature data in tables, for rest is an acceptable job.	Many thanks for your important comments. Table that summarizes the reviewed studies was done. There was a repetition for some words, this because these words were the keywords used in my literature review and they were the focus of the reviewed studies.
