SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Giving some details about pre-operative indications, patient's survive and the operations performed would be better.	As stated in the work, the data was retrieved from the pathology department and the patients' request form which mostly didn't have the indications but the few stated ones was obstructive jaundice and cholecystitis.
<u>Minor</u> REVISION comments	Performed surgery, indications and patient's survival were on a table would be good.	The department do not have data on survival rate of patients
<u>Optional/General</u> comments	Because it was similar topic that I wrote an article on this subject "Overlap of Acute cholecystitis with gallstones and Squamous Cell Carcinoma of the gallbladder in an Elderly Patient " could be cited in this article.	Thank You.
