I could still find so many grammatical errors. The authors are advised to make use of some language editor's if any for improving the quality of the manuscript. Note: 1.This manuscript may be accepted after rectifying the grammatical errors. 2. Kindly change the title of the manuscript as "Incidence of Multiple Mammary Tumours in Sudanese Camel" as indicated by the authors in the revised manuscript. 3. This article is a kind of case report/ short communication and perhaps not to be treated as research article as the number of samples in only one.	The new corrections were done in red colour 1- OK, I WILL DO MY BEST. 2- THE TITLE WAS CHANGED TO: INCIDENCE OF MULTIPLE MAMMARY TUMORS AND FIBROADENOMA IN PATHOLOGICAL STUDY OF UDDER AFFECTIONS IN SUDANESE CAMEL 3- With some addition that we made, the manuscript now is more informative. After revision you can decide whether it is a research article or short communication and we will follow your instruction.
