

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Cancer and Tumor International
Manuscript Number:	Ms_JCTI_27118
Title of the Manuscript:	Knowledge and Screening Practices of Cervical Cancer among Pregnant Women Attending Antenatal Clinic in Tertiary Hospitals in Enugu, South-Eastern Nigeria
Type of Article:	Short Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
There are few comments; Introduction: authors should search for the National Cancer Control Programme Framework for Nigeria that was developed by the Federal Ministry of Health in 2008. Within the framework, there was a plan for cervical cancer screening and vaccination of teenagers against HPV. This should be included as part of Nigerian efforts towards reducing the burden of cancer of the cervix. Results: The title of Table 5 could be modified to read "Association between knowledge, Educational levels and Practice of Cervical Screening" Discussion: The name of first author should be used rather than complete listing of all the authors in brackets. Other authors can be represented by "et al" but will be comprehensively listed in the reference.	National CANCER Control Programme framework have been included in the work. Within the framework the Federal Ministry of Health (FMOH) established a cervical cancer control plan for screening and early detection of cervical cancer and human papilloma virus (HPV) vaccination for primary prevention in girls of 9–15 years Title in table 5 modified as suggested. Only the name of the first author is cited in the discussion and others represented by et al as suggested while they are all listed in the reference section
